

Our Company & Philosophy

U. S. Sedan is locally owned and operated and has grown to be the preferred chauffeur company with affiliates and locations servicing the greater DC metropolitan area and 570 cities worldwide.

At U.S. Sedan, our philosophy is to provide you with service that exemplifies superb quality, security and professionalism. Our commitment to a job well done is our reward. U.S. Sedan imparts the same expert level of service and attention to each and every client we serve.

Our Record

U.S. Sedan leads the Washington, DC metropolitan area in quality rankings. We were rated #1 in service and maintain the highest quality rating by Affiliate Ranking. Additionally, U.S. Sedan received the highest rating available from a recent Department of Transportation audit.

We are the preferred transportation provider for Ritz Carlton hotels, Landmark Aviation, Signature Aviation, and many airfields, FBO's and Aircraft handlers in North America, Europe and Asia. We pride ourselves on our record and strive for excellence in everything we do.

Our Staff

Professional and experienced Chauffeurs are the backbone of U.S. Sedan Service. Our chauffeurs are thoroughly screened, including background checks and drug screenings. Each driver completes a comprehensive certified training program, regardless of their prior experience.

Each professional chauffeur has security clearance to permit service in restricted locations. Their extensive local geographical and technical knowledge allows for a quick response to changing road environments and itinerary modifications, which ensures punctuality for our clients.

We take care of the transportation, so you can take care of business.

Uncompromised attention to detail, exceeding expectations, and limitless luxury are what make U.S. Sedan Worldwide a leading chauffeur company for private aviation transportation.

Private Aviation Services

U.S. Sedan Worldwide has become the first choice for the private aviation industry, including airfields, FBO's and Aircraft handlers in North America, Europe and Asia.

We service 5,000 general aviation terminals globally. Each flight is monitored and tracked by state-of-the-art software that is updated in real time using FAA data. When flight diversions, weather delays or unscheduled events occur, each driver is able to react quickly and reposition your vehicle for pickup at a different location or time.

Drivers have access to the latest in mobile technology and are highly knowledgeable of local geography making them extremely efficient at accommodating modified schedules. Additionally, your reserved car can be tracked in real time via our GPS system, then reported to you by email or telephone for added peace of mind.

We also have an in-house concierge who can assist you with changing plans during trips, including reservations, itinerary, and customized sightseeing tours. To ensure each reservation is carried out seamlessly, our courteous telephone representatives are in constant contact with our chauffeurs.

Upon request, U.S. Sedan Service can arrange for special security services including Armored Transport Vehicles, Motorcade Security, Executive protection, Security Escorts and Bodyguards for added safety.

Available 24 hours a day, 365 days a year, our seasoned agents understand the world of private aviation and work vigorously to meet your needs.

Global Reach

We provide service to 650 locations in 570 cities worldwide through our affiliate network and we service 700 commercial airports and 5,000 general aviation terminals globally.

Technology

U.S. Sedan offers the most advanced GPS, weather, and on-board flight tracking capabilities in the industry to ensure accurate, on-time arrivals and departures. We can monitor and track your vehicle by GPS so that you are aware of its location and anticipated arrival times.

Our Fleet

Stunning executive Mercedes, Cadillac, and Lincoln sedans, SUV's, limousines, and executive vans, motor coaches, and buses make up our meticulously maintained fleet. We go to great lengths to ensure the vehicles we operate are in pristine condition. Each vehicle is expertly serviced and professionally maintained and all are well-equipped with the latest technology and features you come to expect from a luxury vehicle.

Our executive accommodations include satellite radio and television, which allows en route access to market numbers, business news, and global events. U.S. Sedan's extensive selection and personalized services guarantee that we can accommodate any transportation requirement you may have, anywhere in the world.
